Week 7: Waves 'N Rays				
29	30	31	1	2
	Grant Pool		Splash Pad	Wheels Day

SEE BELOW FOR FIELD TRIP AND SPECIAL GUEST ACTIVITY DESCRIPTIONS!

Portland Summer Day Camp 2019

Grant Pool

Beat the heat with walking field trips to Grant Pool! Located just steps away from our Hollyrood location we'll be makin' waves from 1-3 every Tuesday! This pool is a Portland Parks and Rec lifeguarded pool and life jackets are available for beginning swimmers!

Day Trips to Camp Namanu

Experience all that our beautiful resident summer camp grounds have to offer all condensed into a day trip! Private, rented busses will depart from site at 9 AM and will return tired campers at 4 PM. Enjoy hikes, critter catch (and release), plant ID, swimming in the pool, archery, lunch outdoors and so much more!

Mad Science

Our friends from Mad Science will be joining us to deliver an awesome "All about Animals" exhibit! Learn to identify sounds of the wild and domestic animal world. Explore paws and claws and the animals that use them to survive. Learn about animal adaptations as you explore the animal kingdom.

Washington Park

Take a quick trip to one our areas most amazing public parks! We will have a picnic lunch, play on the massive playground, take paved hikes and use the amphitheater to perform our talents during Camp Fire's Got Talent Week!

Splash Pad

Grant Park is nestled right between our summer location and Grant Pool! We'll make the quick walk over to the playground and "chill out" in the "cool" Beverly Cleary-themed water fountains.

Science Tellers

An intergalactic special guest! Discover the unbelievable world of physics and chemistry through exciting experiments, such as: turning liquid into solid "worms" using chemical reactions, learning about Boyle's law by launching potatoes into the air and making flying rockets!

Wheels Day

Wheels Day is an opportunity for kids to bring their bikes, scooters, skateboards, or skates to camp every Friday! Staff design a safe course on the blacktop while kids decorate, wash, and get their wheels ready to roll. Helmets are required for all things rolling and elbow and knee pads must be worn while riding skateboards or skates.
