West Linn Summer Day Camp Themes

Week 1: Secret Agent Academy

Become a Camp Fire Secret Agent and learn the art of decoding messages, take on special missions, and graduate from the advanced Secret Agent Academy.

Agents will master skills required to crack codes, discover clues to solve mysteries and become experts in navigating obstacles designed to slow you down!

Week 2: Larger than Life Games and Art

Bring your coveralls and get ready to let your inner-artist shine! Create murals, work on paper mâché projects, explore color with tie dye art, and play classic, life-size games. This week will certainly be "Larger than Life"!

Week 3: Food Frenzy

Food will be flying this week as we learn to safely cook and serve delicious snacks and treats. Flip pancakes to eat with your friends, design a popcorn bar, make quesadillas, noodles, and more! All to be served out of your camp-made food cart!

Week 4: Connect with Tech

Tablets are more than just for streaming and gaming. Learn to write computer code through code.org curriculum, make stop-motion videos with cameras and build photo editing skills after you've taken a great picture. Connect with Tech will have you seeing technology through a whole new lens!

Week 5: Wings and Wheels

Fasten your seat belts and prepare for takeoff with high flying rockets, zippy rubber band cars, and a drive-in movie theater. Keep your head on a swivel as we make traffic control a top priority!

Week 6: Magic and Illusions

Thrill your families with take home magic tricks, explore the world of wizardry, and learn to draw optical illusions. Expect the unexpected during this fantasy-filled experience!

Week 7: Camp Fire Summer Olympics

With the 2020 Summer Olympics kicking off Friday, July 24th, what better way to celebrate than to join in the fun. Learn about competing countries, take part in physical challenges, track victories in a medal count, and participate in Camp Fire's very own Summer Games!

Week 8: Invention Convention

Learn about young inventors just like you as we explore the endless possibilities at our invention convention. Use unexpected materials in remarkable ways to bring your ideas and designs to life!
